Education

Anuradha Engineering College

B.E in Information Technology

Nov 2022 – Present

CGPA : 7.8

Yashwantrao Chavan Institute of Polytechnic

Diploma in Computer Technology

July 2019 – July 2022

Percentage : 75%

Experience

Codec Technologies

July 2025 – August 2025

Java Developer Intern

Mumbai, Maharashtra

- Developed and maintained Java applications using Core Java, Spring Boot, and Hibernate.
- Designed and implemented RESTful APIs, integrated databases with JDBC, and optimized SQL queries.
- Collaborated with the development team to debug issues, improve performance, and deliver functional modules.
- Gained hands-on experience in real-world software development lifecycle (SDLC) and Agile methodologies.

Projects

MERN Stack Chat App / *Reactjs, socket.io, Tailwindcss, DaisyUI*

[Demo](#), [Code](#)

- Developed a real-time chat application using MERN stack, Socket.IO, TailwindCSS, and DaisyUI.
- Implemented JWT-based authentication and authorization for secure user access.
- Integrated online user status (Socket.IO + React Context) and global state management with Zustand.
- Ensure robust error handling across client and server with a responsive, modern UI

QuickCart E-Commerce Website / *Reactjs, Nextjs, Nodejs, Clerk*

[Demo](#), [Code](#)

- Developed a responsive and SEO-friendly frontend using Next.js, React.js, and Tailwind CSS, creating reusable components and optimized client-side routing.
- Built RESTful APIs with Next.js API routes and integrated MongoDB with Mongoose for efficient management of products, users, and orders.
- Implemented secure user authentication (Clerk/NextAuth.js) and Stripe Payment Integration, including role-based access, checkout flow, and real-time order updates.
- Enhanced Performance, scalability, and maintainability through modular code, image optimization, and dynamic meta tags.

MERN Stack Task App / *Next.js, Node.js, Express, MongoDB, Mongoose, JWT, Tailwind CSS*

[Demo](#), [Code](#)

- Built a full-stack task management system with JWT authentication, protected routes, and full CRUD operations for tasks.
- Developed a Next.js frontend integrated with a Node.js + Express backend, using MongoDB for data storage.
- Implemented secure password hashing, search filters, and Postman-tested APIs for reliability.
- Deployed backend on Render and frontend on Vercel, ensuring scalability and smooth user experience.

Technical Skills

Languages: JavaScript, Java, C, HTML/CSS

Developer Tools: VS Code, Git and GitHub , Docker.

Technologies/Frameworks: React.js , Express.js , Node.js, MongoDB, Spring Boot .

Certifications

- Web Development (Internshala)
